

Student Opportunities for Success

A Universal Design for Learning Workshop

Presenters: The ACCESS Project, Colorado State University

Audience: From each of the 2-year campuses:

- Faculty (CCA faculty may be qualified to receive \$16/hour for faculty development)
- Deans
- VPs of Instruction
- VPs of Student Services
- Disability Service providers
- Webmasters
- Faculty Development personnel

Goal: Learn how to make coursework, programs, websites, etc., accessible to students with a wide range of learning needs. This includes students with and without disabilities.

Date: October 30, 2009

Time: 10:00–12:00 and 1:30–3:00

Location: Community College of Aurora,
Building 758, 1059 Alton Way

Rooms: 138/140 and 146

Map: <http://www.ccaurora.edu/start/maps/lowrymaps.shtml>

Host: CCA, Reniece Jones
(Reniece.Jones@CCAurora.edu)

Universal Design for Learning

Universal Design for Learning or “UDL” is a set of techniques for creating inclusive classroom instruction and accessible course materials. UDL acknowledges the diversity in today’s classrooms—students with different life experiences, language backgrounds, learning styles, and abilities. It also recognizes the wide range of instructional technologies employed by faculty and students.

The goal of UDL is to make learning, and the materials of instruction, accessible to *all* students.

Accommodation requests are to be submitted to ASO.CCA@CCAurora.edu or 303.361.7395 five business days before the event.
